2. SCOPE

3. PRINCIPLES

This Policy establishes the principles guiding Petrobras, its Managers, and its collaborators in executing Transactions with Related Parties to secure company interests aligned with process transparency, legal demands, and corporate governance best practices.

The Policy also ensures adequate and swift decision-making by the Company Management, in which employees and any Petrobras representatives must prioritize the Company interests, observing the current legislation provisioned in PL-0SPB-00018 – ETHICS CODE.

Transactions with Related Parties must be executed in normal market conditions, conducted pursuing Petrobras' best interests, without conflict of interests, and observing the following requirements: Competitiveness, Compliance, Transparency, Equity, and Commutativity.

4. GUIDELINES

4.1. Related Parties Identification

The unit responsible for the operation must previously consult Petrobras' List of Related Parties whenever they are entering a new transaction. They should not, however, be limited to this List, and in the case of identifying a possible Related Party not listed, they must contact the Compliance area to verify whether the entity should be considered or not a Related Party. In cases in which a Transaction with a Related Party must be configured, it must follow the provisions in this Policy and respective Guidelines.

Petrobras' System of Related Party ("System of Related Parties") includes the List of Related Parties that the Company displays on the Petrobras Portal (on the Corporate Governance Page) and a list of Key Administrative Personnel and their Families, including the Controlling Shareholder's Key Personnel.

Petrobras' List of Related Parties is composed of:

- Petrobras and other Petrobras System Companies (subsidiaries, controlled directly or indirectly, colligated, joint ventures, joint operation, structured entities);
- Colligated controlled societies;
- Controlled joint-venture companies;
- Closed complementary social security entity – Petrobras Social Security Foundation;

- Supplementary Health Association – Associação Petrobras de Saúde (APS);
- Entities linked to a controlling shareholder; and
- Families linked to the Management Personnel or their Relatives.

Privatized companies in which the Union holds “golden shares” are not classified as Petrobras Related Parties whenever such actions do not grant the Union rights to influence decisions involving the operational activities of privatized companies.

4.2. Executing Transactions with Related Parties

The same guidelines for transactions with third parties that are not related parties apply to transactions with related parties, with due observance of the following criteria:

- be executed according to market conditions, in commutative grounds or with adequate compensation, according to the current legislation; and
- be formalized in writing, with specifications of its main characteristics and conditions, including the involved values, terms, guarantees, rights, and liabilities.

The approval of Transactions with Related Parties follows the same instances applied to transactions with third parties, varying in accordance with the operation’s value and nature.

The Shareholders’ Meeting is in charge of deciding on entering into Transactions with Related Parties, the disposal or contribution of assets to another company if the value of the operation is equivalent to 50% (fifty percent) of the value of the company’s total assets as informed in the last approved balance sheet.

4.2.1. Decisions Concerning Related Parties

Conflicts of interest may occur when a party is not independent regarding the discussed matter and may influence and take decisions motivated by interests alien to those of the Company. It is a situation that must be examined and dealt with in a contingency whenever a conflict of interest is verified between the Company and the agent.

If a potential conflict of interests in a Transaction with a Related Party is identified, the Company Manager or Collaborator must declare him or herself impeached and must abstain from taking part in the negotiation, structuring, and decision procedure regarding the operation, to ensure the Company’s exclusive interest.

Should a member of the Board of Directors or Executive Board have a potential private gain from a decision and not declare his or her respective conflict of interest, any other member of the body to which he or she belongs who becomes aware of the fact may do so.

In this case, the absence of voluntary manifestation from the Manager may be considered a violation of his or her fiduciary obligations and may be subject to a corrective measure from the Board of Directors. The manifestation of conflict of interests and subsequent abstention must be included in the meeting briefing.

4.2.2. Barred Transactions

In addition to transactions conflicting with the principles highlighted in item 3 of this Policy, the following transactions with related parties are also barred:

- a. Those performed in conditions different from market conditions and/or harmful to the Company's interests;

- i. Any form of compensation for advisors, consultants, or intermediaries that should generate a conflict of interest with the Company, the Administrators, and the authority of the Public Entity with which Petrobras is associated.

In the specific case of Transactions with Related Parties involving the Union, autarchies, foundations, and federal public companies, the latter is classified as outside the normal scope of Company business by the Statutory Auditing Committee, which is in the scope of approval by the Petrobras Board of Directors, which must observe the following special procedure:

- Analyzed by the Statutory Auditing Committee and Minority Committee prior to submission to the Board of Directors; and
- Must be approved by the vote of 2/3 (two-thirds) of present Councilors.

In cases of Transactions with Related Parties involving entities under the direct or indirect control of the Federal Union, when they fall within the remit of the Board of Directors, the latter may request:

(i) that the Executive Board provide alternative market options, adjusted to the risk factors involved, provided there are market parameters; and/or

(ii) independent assessment reports, prepared without the participation of any party involved in the operation in question, whether it be a bank, law firm, specialized consultancy, among others, based on realistic assumptions and information endorsed by third parties. If there are no comparable market terms, a duly substantiated justification with such information must be presented.

In the case of a Transaction with a Related Party within the hypotheses provisioned in Article 3rd, §§4th and 5th, of the company's Bylaws, the criterium described in item 4.3(a) of this Policy must be observed.

1. MINUTES OF APPROVAL

Document approved by the Board of Directors of Petrobras - Minutes CA 1730, item 4, dated 03/27/2024 - Agenda No. 25/2024.

2. SCOPE

2.1. It applies to Petrobras, the members of the Board of Directors, the Audit Committee, the Executive Board, the statutory and non-statutory committees, employees and agents acting by delegation of the Company's managers.

3. PRINCIPLES

3.1. This Policy establishes the principles that guide Petrobras' governance for the application of article 23 and paragraphs of the Articles of Incorporation, including the Indemnity Commitment signed between the Company and the members of the Board of Directors, the Audit Committee, the Executive Board, the statutory committees, the non-statutory committees and other employees and agents who legally act by delegation of the Company's managers.

3.1.2 The Indemnity Commitment, as a mechanism to ensure market conditions compatible with the function performed, seeks to guarantee the managers and fiscal directors, as well as all those acting by delegation of these ("Beneficiaries"), in relation to the equity effects arising from lawsuits, arbitration, and administrative processes and other restrictions imposed by reason of the exercise of the position or function.

3.1.2.1 The Indemnity Commitment guarantees the payment of any and all amounts, costs or expenses ("Expenses") that may be proven to be claimed by the Beneficiary, due to complaints, inquiries, investigations and administrative, arbitration or judicial processes, in Brazil or in any other jurisdiction, that aim to impute any responsibility for regular management acts practiced exclusively in the exercise of its activities ("Processes"), observing the principles, procedures and conditions foreseen in this Policy.

3.1.3 With respect to employees, the Indemnity Commitment signed by Petrobras is valid and effective as of its signature by the Company. Regarding the administrators, the Indemnity Commitment must be formalized by a private instrument signed between them and the Company.

3.1.4 The Indemnity Commitment is applicable only to cases in which there is no coverage of the insurance policy contracted by the Company (D&O Insurance), according to the Insurer's formal statement, and the Indemnity Commitment is therefore subsidiary to D&O Insurance, except in the case provided for in item 3.1.4.1.

3.1.4.1 In exceptional and urgent situations, when the time of regulation with the Insurance Company may cause damage to the defense, Petrobras may anticipate the necessary expenses, subsequently reimbursing itself from the Insurance Company, under the terms of the policy.

3.1.4.2 The resolution on the anticipation provided for in the previous item will be up to two Executive Managers.

3.1.4.2.1 Petrobras' counsel should preferably participate in this resolution.

3.1.5 The payment of Expenses must consider the reasonableness of the amounts claimed by the Beneficiary, as well as all the information necessary and available at the time to assess the adequacy of the granting of indemnity or advance/payment/reimbursement of Expenses.

3.1.6 The Beneficiary who is claiming the aforementioned amounts are prohibited from participating in meetings or discussions that deal with the approval of the payment of Expenses, in compliance with the provisions of article 156, heading provisions of Law 6.404/76, Business Law.

3.1.7 The Company, at its sole discretion, as assessed of the specific case, may adopt additional governance procedures that reinforce the independence of decisions, such as referral for resolution at a general meeting in situations where: (i) more than half of the managers are beneficiaries direct from the resolution on the approval of the payment of Expenses: (ii) the financial exposure of the company is significant, considering the amounts of the claimed Expenses: (iii) other cases in which the Company's management understands, justifiably, that the subject should be considered by the shareholders.

3.2. INDEMNITY

3.2.1 The Beneficiary will be fully guaranteed and indemnified by the Company for Expenses related to any equity effects that originate from regular management acts, provided that they arise from the exercise of the position, from decisions/technical statements/actions carried out diligently, in accordance with in good faith, aiming at the Company's corporate interest and in compliance with its fiduciary duties, subject to the provisions of item 3.1.5 of this Policy, as well as the following requirements (i) practiced within the period between the beginning of the contractual relationship until its termination, or (ii) practiced by the previous administration, in the event that the Beneficiary has not connived or omitted with it, pursuant to article 158, § 4 of Law 6.404/76; and (iii) the Beneficiary claims compensation during the term of the Commitment.

3.2.2 The option for eventual execution of (i) judicial or extrajudicial agreements, (ii) or adjustment of conduct agreements or commitments; or (iii) any other agreement or transaction involving any governmental, regulatory, legislative, judicial, arbitration or administrative authority, in Brazil or abroad ("Agreement(s)") shall be incumbent upon the Beneficiary. However, for Petrobras to proceed with the payment, the proposed Agreement

must be deemed reasonable, within the standards applied in similar cases and must be approved by the competent internal bodies of the Company.

3.3. EXCLUSIONS OF INDEMNITY

3.3.1 The Beneficiary will not be entitled to the indemnity rights provided for in the Commitment relating to Expenses, when, evidently, any of the following events occur: (i) there is insurance policy coverage taken out by the Company, as formally recognized and implemented by the Insurance Company; (ii) there is the practice of acts outside the regular exercise of the Beneficiary's attributions or powers; (iii) there is an act of bad faith, intent, gross negligence/gross error or fraud on the part of the Beneficiary; (iv) there is the practice of an act in its own interest or that of third parties, to the detriment of the Company's corporate interest; (v) there is an obligation to pay indemnities arising from a corporate action provided for in article 159 of Law 6.404/76 or from the reimbursement of losses referred to in article 11, § 5, II of Law No. 6.385/76; (vi) the recovery of amounts erroneously paid to current and former members of the Executive Board compensated by variable remuneration linked to financial results, when rectifying the financial statements, in accordance with the Clawback rules applied by the Securities and Exchange Commission (SEC); (vii) other cases in which a situation of manifest conflict of interest with the Company arises.

3.3.2 The Company will not have any obligation to indemnify the Beneficiary for loss of profits, loss of business opportunity, interruption of professional activity, moral damages or indirect damages that may be alleged by the Beneficiary, and the indemnity or reimbursement is limited to the cases provided for in the Indemnity Commitment.

Furthermore, the Beneficiary must sign all necessary documents, as well as perform all possible acts to guarantee such rights to the Company, including signing any documents that enable the Company to file an appeal on behalf of the Beneficiary, binding itself and its heirs and successors.

4.1.8 The Beneficiary who has its Expenses borne by the Company must sign a document, assuming the obligation to return the amount paid, if the occurrence of intent or gross negligence/gross error is configured in the Process by a final decision.

4.2. Advance of Expenses

4.2.1 Petrobras will advance the payment of Expenses, based on article 23, §3 and following, of the Articles of Incorporation, through an internal procedure established specifically for this purpose, and the Legal Department is responsible for providing them directly, except in cases that depend on prior analysis by the Integrity Committee, as provided below.

4.2.2. The coverage of Expenses shall always depend on prior approval by the Integrity Committee in the following situations:

4.2.6 The non-advancement of Expenses does not bind assessment of any reimbursement at the end of the process.

4.3. From the final analysis on the payment of expenses

4.3.1 In the event of a final and unappealable conviction, the Integrity Committee will be responsible for analyzing the need for reimbursement of the Expenses eventually paid by Petrobras, at which time it must assess whether the manager was found guilty of intent or gross negligence/gross error.

4.3.2.1 In this case, the manager may request reconsideration by the Integrity Committee. The request will have another member of the Committee as rapporteur.

4.3.3 In cases of a final decision favorable to the manager, it will be up to the Integrity Committee to pronounce on the reimbursement of the Expenses paid by him, when they have not been advanced by Petrobras.

4.4. Decision of the Insurance Company

4.4.1 Upon the Insurance Company's decision confirming the coverage, and there being an advance to the Beneficiary, the appropriate measures must be taken aiming at the reimbursement of advanced Expenses, either to the Beneficiary or to the Insurance Company, in view of the subrogation referred to item 4.1.7 of this Policy.

4.4.2 In case the Insurance Company decides to confirm the coverage, without advance payment to the Beneficiary, the regulation will be followed up with the Insurance Company, observing the procedure applicable to D&O Insurance.

4.4.3 In the event of an allegation by the Insurance Company that defense costs will only be reimbursed after a final decision that does not attribute to the manager intentional conduct or gross negligence/gross error, Petrobras may make the payment based on the Indemnity Commitment, subsequently reimbursing itself from the Insurance Company, in accordance with the Policy.
